FITFLEX - an adjustable home for your cutlery

Modern, elegant and practical, FITFLEX is a modular, expandable wooden cutlery tray insert system for those wanting their dream kitchen to be beautiful as well as functional.

Fitting most kitchen drawers, FITFLEX are European made, crafted out of solid beech with a plywood bottom. They come ready to use - saving you from hassle and unappealing cutlery drawers.

Now there is no need to house your cutlery in an ill-fitting plastic tray - ask for FITFLEX cutlery inserts at your local kitchen store or cabinet maker to give your cutlery a stunning home.

Mardeco - quality, design and good service

Mardeco offers a range of designer architectural hardware to suit any kitchen or bathroom.
From cabinet handles, pull handles and knobs to hooks and door stops, any Mardeco product will add a touch of sophistication to your home.
