

DOING THINGS DIFFERENTLY

We have been inspired by the winemaking heritage of this site that produced one of New Zealand's first commercial Sauvignon Blanc back in the 1970's (check out the original vines just outside our restaurant).

Driven to do things a little differently and keep the spirit of innovation alive, our wine range not only showcases the best wine regions in the country, but also captures the pioneering nature of New Zealand wine - the search for something new and interesting. Our wine range evolves with the seasons, allowing you to discover something different each time you visit.

So, whether you choose to play petanque in the Family Zone surrounded by the olive grove, or find a romantic spot amongst the vines, this place is all about truly delicious seasonal wine, amazing local beer from our mates at Liberty Brewing Co. and food that can be enjoyed in a backdrop that makes memories of any occasion...
