

JOB DESCRIPTION

POST: **Ruby on Rails Developer**

RESPONSIBLE TO: **Managing Director**

JOB PURPOSE

At Quentosity, we're all about the experience. We design simple, compelling, and functional websites that make it easy for users to quickly find exactly what they're looking for. We specialise in website design & development, lead generation, branding & print, SEO & SEM and social marketing media.

Due to acquisition, Quentosity is now looking for a full time, experienced, Ruby on Rails Developer.

Responsibilities

- Develop applications using Ruby on Rails framework
- Sole responsibility for investigating, fixing and updating large Ruby on Rails projects built by others

Skills & Experience

- Minimum 5 years industry experience
- Experienced in PostgreSQL
- AWS server hosting and management including Amazon, ElastiCache and Amazon CDN
- RESTful API integration
- Code versioning with GITLab
- Relevant tertiary qualifications and/or industry certification & experience

Working hours

This is a permanent position. Hours are negotiable. There will be times where you are required to work later hours as it's the nature of the job. Extra hours are likely when deadlines are approaching, and this may involve working into the early hours to get a job finished.
