

Mission Statement

Hobsonville Point Farmers Market Society has been created to encourage a healthy community and food culture by providing the public with direct access to local honest food producers who specialize in their field.

The Market serves to stimulate and support the local food economy and provide opportunities for local producers to inform, entertain and strongly encourage environmental sustainability.

Hobsonville Point Farmers Market is where it happens, connecting the food community, reflecting the rhythm of the seasons, the passion, uniqueness and diversity, nourishing the mind, body and soul
